VOL. XXIV.

HOPKINSVILLE, KENTUCKY, FRIDAY, MAY 23, 1902.

NO. 41

There Was a Time

Years and years ago, when it was nothing unusual to pay great big profits on buggies. In fact everything was sold on that basis, big profits and long credit—if asked for.

SOME DEALERS

Have not forgotten those times, and are still trying to sell you vehicles of all kinds with a great big margin to play on.

Those Good Old Days

Are past. This is an age of cash, quick sales and small profits with the live dealers.

We Know We Can Convince You of This.

We buy from the best factories in this country, pay cash for all of it and sell for cash on the smallest margin. Buggies were ever handled with care and skill by us. Our method enables us to do this, and out bid our nearest competitor for several points. Our guarantee is the strongest and broadest ever given. Let us show you our line.

FLORAL PARADE

Was a Great and Brilliant Display of Beauty.

Pretty Girls, Bright Flowers, Stirring Music, Gallant Riders, Prancing Horses.

The crowning feature of the carnival, the floral parade, came off yesterday and was witnessed by thousands of people. It was a success in every respect. The weather was about ideal—a little too warm, but a good breeze was stirring. The procession passed from street to street without a hitch and it covered so much territory that there was plenty of room for all to fit it to advantage.

The parade was a beautiful climax to the week's festivities. It traversed the principal streets to the music of two brass bands.

First came the city and county officials in carriages, then the fire department in two decorated transfer wagons. The marshals were in evidence here and there along the line on horseback.

Following the second band came the cadets of South Kentucky college.

The first float, a huge canopied affair, decorated in white, contained the Queen of the Carnival, Miss Elizabeth Morris, surrounded by her maids of honor, Misses Russell, Ray, Rust, Nelson, Gunn, Frankel and Wood.

One of the prettiest vehicles was decorated in white peacock entirely covering the buggy and horses.

Sam Frankel as usual had one of the handsomest in the procession. It was yellow throughout, a dazzling flash of gold, that brought forth applause all along the line.

Then came a carriage trimmed in black and white.

Another in the national colors, most beautifully and tastefully arranged.

A buggy in black and yellow next attracted much favorable comment. Jim Cooper and his bride rode in a handsome vehicle trimmed throughout in scarlet, considered by many the prettiest decoration in the line. It called forth constant applause.

A two-wheel cart trimmed in pink and drawn by a colored man, dressed in pink, was occupied by Misses Johnson and Hathaway, of Owensboro, and its novelty made it especially conspicuous.

This was followed by the Elks lodge on horseback and a large number of private carriages not decorated.

The committee on awards gave the first prize to Sam Frankel, the second to Jas. E. Cooper and the third to Ben Warfield's pony cart.

The last two days of the carnival are expected to be the best in point of attendance. Saturday especially will be a record breaker. The tobacco season yesterday interfered some, but by Saturday the farmers will be ready to come to town and they will all be here.

TOO MUCH BLOOD.

Presbyterians Want Change Made in Their Hymn Book.

Jackson, Miss., May 21.—In the General Assembly an overture was filed with the Committee on Overtures from the Booneville, Miss., Presbyterians, demanding that the hymn beginning, "There is a fountain filled with blood," be eliminated from the Presbyterian hymn book, or else the line reading, "and sinners plunged beneath that flood loose all their guilty stains," be changed.

The overture sets forth that this sentence is an exaggeration of truth in representing that the blood of Christ ever flowed for such quantities which one could be immersed.

Mr. John D. Elliott and wife, of Owensboro, are visiting in the city.

INJUNCTION SUIT

Brought Against Fiscal Court By Crofton Citizens.

Seek to Restrain Road Supervisor Thomas J. McReynolds From Acting.

The threatened suit to test the legality of the present road working system of the county and the constitutionality of the election of Supervisor T. J. McReynolds, was brought Wednesday.

J. H. Spurlin, O. A. West, M. B. Brown, Jno. M. Dulin, Jno. H. Myers and about a dozen other citizens of Crofton are the plaintiffs and they are represented by attorneys James Breathitt and Chas. H. Bush.

The petition is very lengthy and recites in detail the proceedings of the Fiscal Court.

The suit is against T. J. McReynolds, road supervisor, County Judge W. T. Fowler, and Justices S. G. Buckner, J. F. Dixon, N. O. King, J. E. Moseley, T. J. McReynolds, H. B. Clark, J. W. Rogers and W. T. Williamson.

It is sought to restrain Supervisor McReynolds from serving. It is alleged that he does not hold his office by authority of law. It is alleged that he was justice of the peace at the time of his election and voted for himself and was elected by his own vote, and is still serving as both justice and supervisor. That it is contrary to public policy and detrimental to the best interests of the tax payers for a member of the Fiscal Court to create an unnecessary and high salaried office by his vote, and by his own vote elect himself to it.

It is alleged that if the election of McReynolds in January was legal, then it vacated his office as magistrate, and he had no right to vote in the subsequent election in April, held to ratify the previous proceedings.

Plaintiffs pray that the court declare the election or elections to be illegal, null and void, and the office of Supervisor to be vacant. The court is asked to enjoin and restrain the magistrates from recognizing McReynolds as supervisor.

MARKET EASY.

Sales Smaller Than Last Week But Receipts Heavy.

The local tobacco market was easier this week, though prices offered were fully up to those of last week. Some good leaf was disposed of at most satisfactory figures. The sales were not so large as last week, but amounted to 314 hogsheads. Receipts for the week were 575 hogsheads, for the year 8095 hogsheads. Sales for the year 2726 hogsheads. The loose market continues active.

SOME PLANTS SET.

Christian County Blessed With Good Shower This Week.

The rain Tuesday night extended nearly all over the country and a fairly good tobacco season prevailed in some sections. In North Christian the fall was heavy and about one third of the crop was put out. In some parts of South Christian a considerable acreage was also set.

Buggies Smashed.

A jam in the street came near doing serious damage in front of Cooper's stable yesterday afternoon. A team backed into Mr. Cooper's spirited team of grays, causing them to plunge and demolish two buggies in the street and damage the carriage to which they were hitched. In trying to prevent a smashup, Mr. Cooper came near being crushed, but escaped with a few bruises by turning the team loose.

Mrs. John D. Elliott, of Dawson, is visiting relatives in the city.

Another Hundred Injured and Many Die.

Goliad, Tex., May 20.—Ninety-two dead and 103 injured is the result of the awful work of Sunday's tornado. This historic little city was literally swept from end to end by the rushing winds and 150 houses were razed to the ground by the shock. About 29 of the dead were white people, the rest negroes.

Reports from various portions of the State show that the damage from the storm is widespread. Two churches were wrecked at Shiloh and several houses were demolished. At Ben Hur three houses were destroyed and three persons were reported killed there. John Gorham was seriously injured at Thorndale, where several houses were wrecked.

DOCKET FILLING UP

With Divorce Suits to Be Tried in June.

Jackson Weathers wants a divorce from his wife, Mary B. Weathers, and has brought an action for same. He alleges that they lived together about one year when defendant abandoned his home.

J. R. Wooley has sued for a legal separation from Bonnie Wooley, alleging abandonment. They were married in Clarksville in 1879 and lived together as man and wife for 20 years, the plaintiff states. They have six children, two of them over 21 years of age, and the custody of four of them is also asked for by plaintiff.

Frank Clark vs. Mary Lizzie Clark is the style of another divorce suit filed with the Circuit Clerk. The petition states they were married in the year 1885 and lived together until 1900. Abandonment and lascivious conduct is charged. Frank Lewis wants a divorce from Miley Lewis. Adultery is charged. They were married in Christian county in 1890 and lived together as man and wife two years says the plaintiff.

Ophelia Cowherd sues for a legal separation from Ben Cowherd. Plaintiff says that they were married in Hopkinsville about two years ago, and that the defendant parted with him on the altar, immediately after the ceremony and has not since lived with him.

question of road improvements is
one absolutely under the control of the
Fiscal Court. The court has
therefore appointed certain of its
own members as committees to look
after local or district improvements.
It was decided to change this unsat-

be obtained on prescription from
a reputable physician, as the dam-
age they will do is ten fold to the
good you can possibly derive from them. Hall's Catarrh Cure, manu-

Catarrh

The cause exists in the blood, in
what causes inflammation of the
mucous membrane.It is therefore impossible to cure
the disease by local applications.

It is positively dangerous to neglect

it, because it always affects the stomach

and deranges the general health,

and is likely to develop into consump-

tion.

Many have been callously and permanently
cured by Hood's Sarsaparilla. It cures the blood and has a peculiar alterative and tonic
effect. R. L. Lee, California Junction, Iowa,
writes: "I had a bad case of catarrh, lost my
appetite and could not sleep. My head pained
me and I feasted had all over. I took Hood's
Sarsaparilla and now have a good appetite,
sleep well, and have no symptoms of catarrh."**Hood's Sarsaparilla**Promises to cure and keeps the promise.

WHAT WE WANT.

Secretary Abernathy Tells What
the Commercial Club Is Work-
ing For.Secretary H. H. Abernathy, of
the Commercial Club, in an inter-
view with a KENTUCKY represent-
ative, enumerated some of the many
things the club is working for and
hopes to secure. He is an enthu-
siastic worker for new enterprises
and gives strong reasons for his
work, saying:"We have grown about as large
as an agricultural town can grow.
We raise, handle and sell each year
the same old amount of tobacco, the
same old crop of wheat, the same
two or three calves, the same little
flock of sheep, and the same num-
ber of hogs. Now, suppose we stop
and think awhile and see if we
can't do better. We want more
people to eat more sheep, more hogs
and more cows. To drink more
milk, to eat more butter and bread;
chew more tobacco; wear more
clothes. Now, we can get these
people if we can find something
for them to do. So let's get some
factories. We need a great big
factory, run by a man with experience
and capital who can manufacture
both cheese and butter. You can
make it pay to milk twenty or
ten cows and sell the milk rather
than half milk two cows and throw
away the milk. We want a big
canning factory so we can sell your
"truck" instead of letting it decay
in your fields and gardens. I be-
lieve we can grow small fruits and
vegetables as near perfection as
any place on earth. We want a
factory that will take all the straw
you burn up every year and put it
to use in paper or otherwise.We want a tile factory, so you
can get tile and drain all the low
land on your farm and at a reason-
able cost and we want to get it at a
price that will not be equal to the
freight you have to pay now. We
want a tannery to make leather out
of your beef hides right here at
home and then we want a shoe fac-
tory to put that leather into shoes.
We want a furniture factory to take
your walnut, oak, cherry or gum-
timber and turn it into furniture
that can be sold here at home and
freight saved on it."We want a hub and spoke fac-
tory to take your hickory and make
it useful here at home. We want
a woolen mill to take the wool from
your flock of sheep and card it into
rolls or battings or make into
cloth and exchange it with you
right here at home, and thus give
employment to hundreds who want
to earn a few honest pennies by
sewing and knitting. We would
like to have a great big cotton
factory employing hundreds of hands,
who would eat our corn and wheat
bread, and cheese, drink our milk,
wear our shoes, our own cotton and
woolen clothes and sleep on nice
furniture made right here at home.
These things can be secured by
united effort on every body's part.
Speak well of your own farms and
stock, your neighbor's cattle and
hogs, and don't forget to praise
your own town and merchants.We want a hub and spoke fac-

Weak?

A TREAT FOR PERCIVAL.
Proud Young Mother and Her Brilliant Little Schems.

"I suffered terribly and was extremely weak for 12 years. The doctors said my blood was all turning to water. At last I tried Ayer's Sarsaparilla and was soon feeling all right again."

Mrs. F. F. Hadlyme, Ct.

No matter how long you have been ill, nor how poorly you may be today, Ayer's Sarsaparilla is the best medicine you can take for purifying and enriching the blood.

Don't doubt it, put your whole trust in it, throw away everything else.

\$1.00 a bottle. All drugstores.

Ack your doctor what he thinks of Ayer's Sarsaparilla. He knows all about this grand old medicine. And we will be satisfied.

33,700 LOST.

Close estimate on the Volcano Victim.

The first official estimates of the results of the explosion of Mont Pelee have been announced, says a Fort de France dispatch. This gives 29,000 as the number of people buried in the ruins of St. Pierre. Six thousand persons from other towns were rescued by steamship or fled to places of safety. 3,000 persons probably were drowned. This is the most complete estimate made so far. About 1,700 were lost on St. Vincent.

The relief steamers now on the scene are the American ships Cincinnati, Sterling, Potomac and Longfellow; the French Cruiser Suchet and the British supply boat Madiana. Owing to the red tape it has been found impossible up to the present time to unload the supplies sent by the Chamber of Commerce of New York.

The bodies of Thomas T. Prentiss, American Consul and James Japp, British Consul, have been identified, and will be brought here for shipment. Both bodies were bruised by the fall of lava and stones almost beyond recognition.

Wont Follow Advice After Paying For It.

In a recent article a prominent physician says, "It is next to impossible for the physician to get his patient to follow any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, merely the drug treatment." When medicines are used for chronic constipation, the most mild and gentle drugs, such as Chaperin's Stomach and Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by C. K. Wylie.

Another Contest in Clarksville.

An Old Time Fiddlers' contest will be held at the Opera House in Clarksville June 20, the proceeds to go to the Masonic Lodge at that place. Several performers of this city will attend.

Inurities in the blood produced by digestive disorders must be driven out before hot weather sets in, otherwise sickness will appear. At the same time a strong, vigorous body is most needed. Prickly Ash Bitters will expel all impurities and put the system in perfect order. R. C. Hardwick, special agent.

Died In Asylum.

Roscoe Lee, a colored asylum patient, died Tuesday of epileptic convulsions, aged 35 years. The remains were shipped to Smith's Grove Wednesday for interment.

Whooping Cough.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: "Our three children took whooping cough last summer, our baby boy being only three months old and owing to giving them Chamberlain's Cough Remedy, they lost none of their children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup to stop it. Jessie, Jessie, Jessie, HALL, Springfield, Ala. This Remedy is for sale by C. K. Wylie."

Bob Stepp, col., died near Church Hill Tuesday, of consumption.

Warm spring days produce a feeling of drowsiness if the body is loaded with impurities of winter diet. Cleanse the blood, liver and bowels with Prickly Ash Bitters. It creates energy and cheerfulness. R. C. Hardwick, special agent.

A Notable Foghorn.

A large foghorn is to be placed in the Gulf of St. Lawrence. The horn is four feet in diameter at the outer end and 12 feet long, and the sound is produced by driving compressed air through a double set of valves carrying revolving discs with holes cut in them. One set of discs produces a deep roar and the other a shrill shriek. The valves are controlled by clockwork and every two minutes a roar is emitted, followed ten seconds later by a shriek.

To operate the horn there are three air tanks, each six feet in diameter and 12 feet long, and three oil engines run three compressors to fill these tanks. On a favorable day this horn can be heard at a distance of 12 to 15 miles. The plant is automatic.

MOST LADIES NEED A TONIC EVERY SPRING.

MRS. BARBARA McDONALD, President of the St. Louis Blister Club, writes the following letter concerning Peruna from 247 Dayton street, St. Louis, Mo.:

"It is with feelings of gratitude for the benefit I have received from Peruna that I desire to speak to human kind and my experience, hoping that it will benefit some unfortunate sufferer like myself."

"Suffering for years with what appeared to be an incurable malady, and after many expensive and痛苦的治疗, I was recommended to try Peruna. As a last expedient I purchased a bottle, and before one-half of the contents were used I felt the beneficial results. I am continuing to use same, and might say I am entirely well. My rheumatism has been entirely left out, and my digestive organs are in excellent condition, which I owe to the use of Peruna."

MRS. BARBARA McDONALD.

Miss Julia V. Teller, of 2318 Prairie street, Milwaukee, Wis., is President of the German Young Woman's Union. Her opinion of Peruna is given in the following words:

"Our German Young Woman's Union has nothing but praise for Peruna. Three of our members have been most wonderfully helped. One of them has

almost constant backache for the last year. The other two suffered from catarrh of the head and throat.

"I have used it after a most unpleasant

experience with an attack of la grippe, and found that three bottles completely restored me to health."

Mrs. Mary Hardy, 809 W. Polk street, Chicago, Ill., writes:

"I find it necessary each spring to take some kind of a tonic and have tried a great many but have found none of such value as Peruna.

"After taking a few doses I feel the good effects and seldom need to take more than one bottle as a spring medicine."—Mrs. Mary Hardy.

Mrs. Catherine R. Bertos, 809 N. Elm street, Centralia, Ill., writes:

"I have found Peruna the most satis-

factory medicine I ever tried in my life.

I suffered for years with catarrh of the

weather is especially trying to women. Ailments peculiar to the sex

are especially prone to aggravation. All this class of afflictions are fully described by the term 'pelvic catarrh.'

Any woman wishing to be placed on the list of Dr. Hartman's patients for free home treatment and advice should immediately send a specimen of symptoms during the day and treatment already tried. Directions for this treatment will be promptly mailed free of charge. No free medicine will be supplied by the doctor, but all necessary directions will be furnished.

Read what the above ladies have to say of Peruna as a cure for these cases.

"If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis."

Clerk and Carrier Examination.

The United States Civil Service Commission announces that on June 11, 1902, an examination will be held in this city for the positions of clerk and carrier in the post-office service.

This examination offers an excellent opportunity for entering the Federal service to bright, energetic young persons who are not afraid of hard work, and the Commission hopes that a large number of intelligent, active persons will present themselves for this examination. It may be stated that there is a wider field for advancement upon merit in the Federal service than in many private employments.

The nature of the examination is for the practical, general intelligence, and of adaptability in office work. The age limitations for this examination are as follows:

All positions 18 to 45 years.

All persons who have been examined for the position of clerk or carrier within the past year and failed to pass may be examined upon filing new applications in due time.

All applicants, male and female, must have medical certificate in Form 101 executed. Male applicants must be at least 5 feet, 4 inches in height, and weight not less than 125 pounds.

The names of all male eligibles will be entered on both the clerk and the carrier registers, and application from either register will remove the eligible's name from both registers.

This examination is held to secure eligibles for appointment either to existing vacancies in the present force, or for an increase of force which is expected will be made after July 1 next.

This examination is open to all citizens of the United States who comply with the requirements. Competitors will be rated without regard to any consideration other than the qualifications shown in their examination papers, and eligibles will be certified strictly in accordance with the civil service law and rules.

For application blank (Form 101) full instructions, specimen examination questions, and information relative to the duties and salaries of

the different positions, application should be made to the undersigned.

Applications may be filed with the secretary of the local board as late as 9 a. m. on June 11, 1902.

W. M. E. WILLIAMS,
Secretary Postal Board.

What's in a name? The word 'biters' does not always indicate something harsh and disagreeable. Prickly Ash Bitters is proof of this. It cleanses, strengthens and regulates the system thoroughly, yet it is not a烈的 and most delicate stomach will not object to it. R. C. Hardwick, special agent.

Lawyers Advertise.

In spite of the prejudice among lawyers against straightforward advertising, says the Philadelphia Record, several members of the bar advertise regularly in newspapers, and they find it pays. One lawyer in New York who puts \$100 a week into newspaper advertising tells Printers' Ink that he would not stop advertising for the world.

"If I should stop it, he adds, I should expect to be forgotten. The ethics of the profession are largely an illusion — a bugaboo. No lawyer is ostracized because he advertises."

Athletic Preacher

Swims Ashore With a Young Girl

After Canoe Had Upset.

Bowling Green, May 20.—The Rev. C. W. D. Hill, the young rector of Christ Episcopal church here, and Miss Rouse, one of the music teachers at Potter College, of this city, narrowly missed being drowned yesterday afternoon in Barren river. They accompanied a party of young people on a fishing trip. Mr. Hill and Miss Rouse were in the same canoe. The minister, in attempting to land a large fish, overturned the boat. The rector is athletic as well as religious, and succeeded in swimming ashore with his female companion.

All Infants Saved.

The General Assembly of the Presbyterian church in the United States Tuesday evening discussed the question of infant salvation, and in elucidation of that portion of the Confession of Faith relating to the subject, so changed it as to make it clear that the church's belief is that all dying in infancy "are included in the election of grace."

Schley, a Santiago

BY GEORGE EDWARD GRAHAM.

The Interred Associated Press war correspondent, who was a member of the U. S. fleet, describes the entire five months of the campaign. Illustrated with photographs taken by the Author during the fight.

The Most Sensational Book of the Day.

The true story of the famous critics of the Flying Squadron, the battle of Manila Bay, the breaking of the blockade and destruction of the Spanish fleet.

TO READ FOR THE FIRST TIME.

Costly illustrations, personal account of the battle by Rear-Admiral Schley.

"The facts of the story of the movement, and the battle of Manila Bay, as told by the author tell them in this book are correct."

An interesting narrative of the "Fate of the so-called 'Undergraduates Movement'" in the "Cuban Revolution," and the corresponding severe adverse critics of the Court of Inquiry.

PRESIDENT ROOSEVELT. when Governor of New York, was a member of the U. S. fleet, and the best account I have heard or read of the movement following the battle of Manila Bay is in this book.

"The New York Herald says—" "The killing of soldiers, leave the reader free to make the deduction that the author of this book is a traitor to his country. It is a pity to re-stimulate their resentments, if they can be re-stimulated."

No subject has ever been before the public, that has interested everybody as the manner in which Admiral Schley was treated, and the American people are now fully aware of the recognition of the Spanish fleet.

Everyone is now fully aware of the circumstances as they were, and the author of this book is a traitor to his country.

Price \$1.50, \$1.75, \$2.25, \$2.75, according to style of binding desired.

REAR ADMIRAL COGHLAN.

His Recent Promotion an Act of Personal Friendship on the Part of President Roosevelt.

By the restoration of his lost numbers, Joseph B. Cogahan, U. S. N. became a rear admiral. This promotion, of course, means his admittance as a participant from the Navy, where he has been a prominent figure for nearly a year. Rear Admiral Cogahan was born at Frankfort, Ky., December 9, 1859. Three years later he was admitted to St. Charles College, and entered the naval academy at the Naval School at Beaufort, where he received his appointment to the United States naval academy, which he entered in 1869. After his graduation in

Quicksand is much like the quicksand. The first symptoms of stomach trouble do not cause anxiety. But when the body grows weak from want of nourishment and disease of the stomach, heart, lungs, liver or kidneys, the sufferer realizes his danger and seeks for medical aid.

Dr. Pierce's Golden Medical Discovery cures all diseases of the stomach and all other organs of digestion and nutrition. It cures diseases of heart, lungs, liver, kidneys, etc., when they are in their early stages. In case of the stomach and its allied organs,

Thomas A. Swart, of Sub-Sation C, Columbus, Ohio, writes: "I have had a severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble. I was told to take Dr. Pierce's Golden Discovery and I scarcely got around. At first I had all the complaints, but now I have none. I am now well again, by the aid of a chair, and I got so thin I had to give up to others. Then a neighbor came and Dr. Pierce's Golden Discovery and make a new man out of myself." The first bottle of Dr. Pierce's Golden Discovery cost me one dollar and after I had taken eight bottles, in about six weeks, I was well again. I now weigh one hundred twenty-seven (27) pounds. I have done more in the last six months than I did in three years, and I am as stout and healthy as ever, as I ever was.

by Presidential Order.

1863 he served in various squadrons and on various stations until March, 1867, when he was ordered to command the Raleigh. About eight months later this cruiser was sent to reinforce the Asiatic squadron under Admiral Farragut, and participated in the battle of Manila Bay. The Raleigh had, in fact, the honor of firing the first gun—at a quarter past 12 in the morning—on the famous first day of May; also the last gun of the battle, when the gunners, trained in the naval campaign against the Spaniards in the Philippines, August 13, 1898. Rear Admiral Cogahan commanded the expeditions of the second and third of May, 1898, for the destruction of the batteries at the mouth of the gunboat Callao on the 12th, and on the 15th of July commanded the expedition for the capture of the Spanish position at Isla Grande, in Subig bay, Luzon. He returned to the United States with the Raleigh in April, 1899.

Catholics in Y. M. C. A.

There is a movement in the Roman Catholic church toward the general organization of associations similar to the Y. M. C. A. The movement is a new movement, for Catholics have had such associations for years, which have been social, athletic and fraternal, with occasional religious addresses. But, says Association Men, it will be better if the organization of the church shall be made with the same spirit and enthusiasm for the spiritual welfare of young men that the organization will attain the measure of success and influence for good that it originates desire.

The Raleigh had, in fact, the honor of firing the first gun—at a quarter past 12 in the morning—on the famous first day of May; also the last gun of the day. It was the gunner, trained in the naval campaign against the Spaniards in the Philippines, August 13, 1898. Rear Admiral Cogahan commanded the expeditions of the second and third of May, 1898, for the destruction of the batteries at the mouth of the gunboat Callao on the 12th, and on the 15th of July commanded the expedition for the capture of the Spanish position at Isla Grande, in Subig bay, Luzon. He returned to the United States with the Raleigh in April, 1899.

A LEADING QUESTION.

It was asked of Senator Wolcott soon after he had landed in the Woolly West.

At the outset of his career Senator Edward O. Wolcott, of Colorado, established a law and real estate office in Georgetown. Being in partnership with a member of his family, a sign reading thus:

ED. WOLCOTT & BRO.

was duly sworn to the breezes. Just now, however, he has "left the Woolly West" to move to a neighboring locality where silver had been found and where the general prospect was improving daily. So he bought a donkey,

and, packing up his belongings, he took with him his firm's sign, thinking that with a little fresh paint and some erasure it might be made to do duty all over again. When he reached his new home a group of miners gathered to welcome him. All eyes were fixed on the sign. For it contained no one spoke, and then on grizzled velvets an arrow was drawn: "Say, young feller, which of you all is Ed?"

A FEW FEATURES FOR 1902

New Romantic Love Story by BOOTH TARKINGTON, author of "The Great Man from Indiana" and "Maurice Beauchamp," a tale of love thwarted but triumphant, of gallant men and beautiful women. It deals with life in Indiana at the time of the Mexican War.

True Story of the Standard Oil. By IDA M. TARBELL, author of "Life of Napoleon," "Life of Lincoln," etc. A dramatic, human story of the first and still the greatest of our trusts—not an economic treatise, but an exciting history.

Greatest of the Old Masters. By JOHN LA FARGE. Interesting and helpful papers on Michelangelo, Raphael, Rembrandt, etc., their finest pictures reproduced in this.

Mr. Dooley's His Travels. His views upon the typical New Yorker, Philadelphian, Bostonian, and inhabitant of Chicago and Washington.

William Allen White on Tillman, Platt, Cleveland and others.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE AMERICAN MONTHLY REVIEW OF REVIEWS is recommended by Statesmen, Professors, and other leaders of others prominent in the world's activities, for its fine discrimination in sifting the actual news from conflicting report and the presentation of current events in their just proportion. They comment on its favorite topics—politics, art, literature, science, etc. And you want to know what the world is doing find an intellectual necessity, to judge from the letters received from hundreds. Its editorials are comprehensive, and labor saving to the busy man or woman. Its timely commentaries are valuable to the informed reader. Its reviews of other magazines give the best of their best work. It is profusely illustrated.

These letters will enable all thoughtful men and women to judge of its value.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

"I know that through its columns views have been presented to me that I could not otherwise have had access to; because all earnest men and women in this country, who want to know what the world is doing find an intellectual necessity, to judge from the letters received from hundreds. Its editorials are comprehensive, and labor saving to the busy man or woman. Its timely commentaries are valuable to the informed reader. Its reviews of other magazines give the best of their best work. It is profusely illustrated.

EX-PRESIDENT

"I am a constant reader of the 'Review' of the world, and appreciate it very highly indeed. I think it is a very important part of my library, and practically a necessity in my library. I am in full agreement with the editor in his judgment of the value of the 'Review'."

MAINE BEAVERS.

Build a Dam That is Better Some Constructed by Men.

The biggest beaver dam ever seen in Maine is now attracting hundreds of people to Caribou, on the Aroostook river. Two miles from the village the beavers have built a dam of logs and mud 250 feet long, turning the river back upon the lowlands for a distance of three miles and thus creating a great lake. Trees a foot in diameter have been cut down by the beavers, the branches trimmed off and the trunks brought to the dam and submerged. The dam is better than many on the river that have been built by men, and the Caribou people are rather proud of it. Over 1,000 beavers have worked hard on this job for several months, and they will be allowed to remain in possession all winter.—*Leviston Journal*.

THE OBJECT

Of the Kentucky Educational Association at Lexington.

(By SUPT. J. G. CRABEE, ASHLAND.)

The Kentucky Educational Association will hold its next session in Lexington beginning at 2 p. m., June 24, 1902. If its purpose is firmly fixed in the minds of the State, it will be the greatest educational gathering in the history of Kentucky, and Lexington will offer a welcome and reception that the visitors will carry in memory for years.

This annual meeting of the teachers of the common schools, the academies, the normal schools, and the colleges, means, first of all, the direct betterment of the schools themselves. Weary teachers are refreshed, sick teachers are recovered, weak teachers are strengthened, disheartened and disengaged teachers are heartened and enlivened, old teachers are rejuvenated and dead teachers are made alive; and all because of the union and fellowship of kindred spirits. And when teachers become thus renewed in body and spirit they are bound to carry new life and vigor into their school rooms. Oh, that ever teacher in Kentucky might help to add to the glow of inspiration that ought to come from this State meeting.

Hundreds of communities yet need the force that comes only through an educated and enlightened public sentiment. Public sentiment and the leaders of public sentiment are born in just such meetings as these educational associations. Teachers can not afford to remain at home as if uninterested. Folks say of such teachers that they fear to see public sentiment aroused because of their incompetency. How much better for teachers to help form and mold public sentiment than to wait until an aroused public sentiment proceeds to fashion them to a new and better order of things, or to insist upon their retirement from the ranks.

Every school board, every community should know—in fact they are rapidly coming to know—that no teacher can long continue to do excellent work and render the best service who neglects to read and digest the best educational journals and to attend the best educational associations. Through these means are learned the most excellent ways in methods, devices and sound pedagogy, and through these alone are caught the spirit of progress and the inspiration for higher ideals. Keep up with the procession! Let each teacher in the Commonwealth arrange affairs so that a few days may be spent in professional counsel at Lexington this summer.

Hail-ho! on railroads make it easier for the Kentucky Educational Association.

ASKS \$1,950 DAMAGES.

Suit Filed Here Against Western Union Telegraph Company.

I. B. Sherrill has filed suit here against the Western Union Telegraph Company for \$1,950 damages. He alleges that on March 30 last James B. Higenbottom, of Clarksdale, Ill., sent him a message announcing the sudden death of Mrs. Higenbottom, his sister, and that the telegram was not delivered to him until the morning of the 31st of March.

Plaintiff further states that his sister was a native of Christian county, and expressed a desire to be buried in this county, but by reason of the failure of defendant to deliver the message promptly he was unable to make arrangements in time to carry her wishes into effect.

Don't Wait Until Fall TO BEGIN TO BUILD.

It takes a month or more to get the plan question settled, and the best houses can not be built in a hurry. A house built in the winter is seldom satisfactory, and a fall beginning means a winter ending. Furthermore, prices on all materials are generally higher in the fall. Then too, most people wait till then to build, and work brings a higher price when there is a great deal of it. Hence you have everything to gain and nothing to lose by building in the Spring and Summer.
